

# HARTMANN&FORBES

## NEW NATURAL FABRICS

In a fresh translation of textural classics, this timeless collection of linen fabrics offers hints of the exotic, while remaining grounded in the modern movement. Loomed in some of the world's oldest and most revered textile mills, the linens are available in seamless widths up to 118" with four designs boasting the MASTERS OF LINEN® distinction.

## Modern Mix, Rustic Textures

Now offered in seamless widths up to 180" and crafted using sustainable blends of grass fibers, Hartmann&Forbes has added 19 new designs to their **Woven to Size** collection. Recent introductions also include three new additions to the in-stock **Tailored to Size Grassweave** collection, offered in seamless widths up to 120".
